Specifications

Technical specifications

- Energy saving: 70 %
- Fitting/Cap: E27
- Lifetime: 10000 hour(s)
- Lifetime: 5 year(s)
- Light effect: Cool daylight
- Light source: Energy saving lamp
- Shape: Spiral
- Voltage: 220-240 V
- High power factor: >=0.95
- Wattage: 65 W
- Wattage standard bulb: 200 W

Highlights

Energy efficient

All Philips energy-saving bulbs save energy from the moment you turn the switch. During their lifetime they use fewer kW, resulting in a lower energy bill. The level of energy saving differs per lamp type and technology.

Carbon footprint

Energy-saving bulbs reduce the amount of energy use in your home, which results in a lower energy bill and less carbon (CO2) output by your energy supplier.

Extra brightness

Brighter usually means more power, and a brighter life comes at a price. Philips energy- saving bulbs give you more light without requiring more power.

Reliable quality

Philips keeps its promises about bulb performance. You can trust what the Philips packaging is saying about light output, lifetime and wattage equivalents to incandescent lamps.
